

## **Pre-Teacher Internship Program in Schools**

Pre-TIP i.e. Pre-Internship Program is a part of B.Ed course that a student has to practice before going to the School for Internship Program in Teaching.

Students of IEdS visit a nearby Govt. Middle School for Pre-Internship Program. They are required to teach one of the subjects out of their two Methodology subjects for a 45 minutes session. This practice for about three weeks makes them much confident to face the problems of real classroom. Students come to know the different kinds of students, their mental level, expectations from the teacher, which methodology to be used in teaching etc.
