World Health Day is celebrated every year on 7th April to mark the foundation of World Health Organization which provides us with a unique opportunity to mobilize action around a specific health topic. Through collage making, B.Ed students focused on the fact that Health is our biggest asset. The theme for this year was “Depression- Let’s talk”. Mainksha Lama gave a presentation on World Health Day. She pointed out the fact of being in a clean and hygienic environment to remain healthy. Students had a healthy discussion on characteristics, symptoms and how can we combat this illness. Students put forth their views on how can they adopt a healthy life style to remain fit and positive.
